

Hayward to Trego

St. Croix National Scenic Riverway

The Namekagon River between Hayward and Trego offers good canoeing and tubing except in extreme drought. Call the Namekagon Visitor Center, (715) 635- 8346, or check the Riverway website at: www.Nps.gov/sacn/trip/river_levels.html, for water levels and canoeing conditions. Class I rapids exist immediately after Stinnett and Groat Landings. Watch for rocks and other obstacles in these areas. Telephones, food and restrooms are available in towns located along the river. Water is also available at the Hayward DNR Ranger Station, Monday through Friday, 7:45 a.m. to 4:30 p.m. Several private fee campgrounds, accessible from the water, are located between the Namekagon Visitor Center and Trego Dam. Jumping from bridges, trees or cliffs is prohibited. Individual campsites accommodate up to 8 people and 3 tents. Group campsites accommodate up to 16 people and 6 tents.

International Scale of River Difficulty
Class I: Moving water with few riffles and small waves. Few or no obstacles.

WISCONSIN

Map Updated March 2003

Facilities	Campsite	Drinking Water	Toilets	Picnic Tables
Hayward Landing	●		●	●
West River Landing				
Stinnett Landing			●	●
Groat Landing		●	●	●
North Springbrook Landing				
Springbrook Landing			●	●
Big Bend Landing				
Earl Park Landing	●	●	●	●
Namekagon Visitor Center*		●	●	●

Some toilets are primitive. *Open seasonally, water located inside center.

Distance Between Locations

Example: To find the distance between Earl Park Landing and Stinnett Landing, move vertically down from Stinnett Landing and move horizontally left from Earl Park Landing. You should arrive at the square reading 16.5 miles.

Hayward Landing							
8.4	Stinnett Landing						
11.4	3.0	Groat Landing					
13.7	5.3	2.3	North Springbrook Landing				
16.3	7.9	4.9	2.6	Springbrook Landing			
20.9	12.5	9.5	7.2	4.9	Big Bend Landing		
24.9	16.5	13.5	11.2	8.6	3.7	Earl Park Landing	
28.9	20.5	17.5	15.2	12.6	7.7	4.0	Namekagon Visitor Center/Landing
